## PRODUCT WARRANTY AND REGISTRATION

Thank you for choosing Bull Outdoor Products. To enable our commitment to your satisfaction, you will need to register your purchase for it to be covered under Bull's warranty policy. Please save your purchase receipt as it is required for warranty claims. Additionally, registering your purchase will allow Bull or your Bull Authorized Dealer to utilize the encoded information for the purpose of ordering replacement parts or additional accessories to ensure your purchase remains in optimal working condition. To validate your warranty, we offer two options as shown below:

## OPTION 1 / Registering Online

Registration can be completed on the Bull Customer Service Portal, found here <https://api.bullbbq.com/c/>

## **OPTION 2 / Registering by Mail**

Complete the Product Warranty Registration Card  
that will be in the shipping box (see reference) —

**Send to: BULL OUTDOOR PRODUCTS, INC.**  
**15 East Ave. Athens, TN 37303**  
**Attn: Warranty Service Center**

## UNPACKING THE SHIPPING BOX

Go to <https://bullbbq.com/bull-support-videos/> where we show you how to unbox, install components, and more.

AFTER OPENING THE SHIPPING BOX,  
INSPECT THE CONTENTS FOR ANY DAMAGE  
AND CONTACT OUR SERVICE CENTER OR  
LOCAL DEALER FOR THE REPLACEMENT OF  
ANY DAMAGED PARTS. IF DAMAGED DO NOT  
ATTEMPT INSTALLATION.

## ORDERING REPLACEMENT PARTS

***Please refer to your owner's manual parts list and illustration to identify what you need.***

Below are options for ordering if you have not yet registered your purchase, please register on our website as soon as possible as this information is essential for ordering replacements.

## To Order Replacement Parts online

12	HEX DRIVE BUTTON HEAD SCREW, M5 X 30	24	
13	FLAT WASHER, 5mm	24	
14	LOCK WASHER, 5mm	24	
15	PHILLIPS DRIVE SCREWDRIVER	1 required	ASSEMBLE GUSSETS TO VERTICAL SUPPORTS & SHELF
16	PHILLIPS DRIVE BUTTON HEAD SCREW, M5 X 12mm	16	
17	FLAT WASHER, 5mm	32	
18	ALLEN WRENCH (5mm)	1	
19	HEX DRIVE BUTTON HEAD SCREW, M8 X 20	16	ASSEMBLE CASTERS TO BASE FRAME
20	FLAT WASHER, 8mm	16	
21	LOCK WASHER, 8mm	16	

## CART ASSEMBLY INSTRUCTIONS

Do not assemble or operate a dual fuel pizza oven cart that is damaged. For your safety, Bull recommends the assistance of another person when assembling larger and/or heavier items.

### STEP #1: DUAL FUEL PIZZA OVEN CART ASSEMBLY SET UP

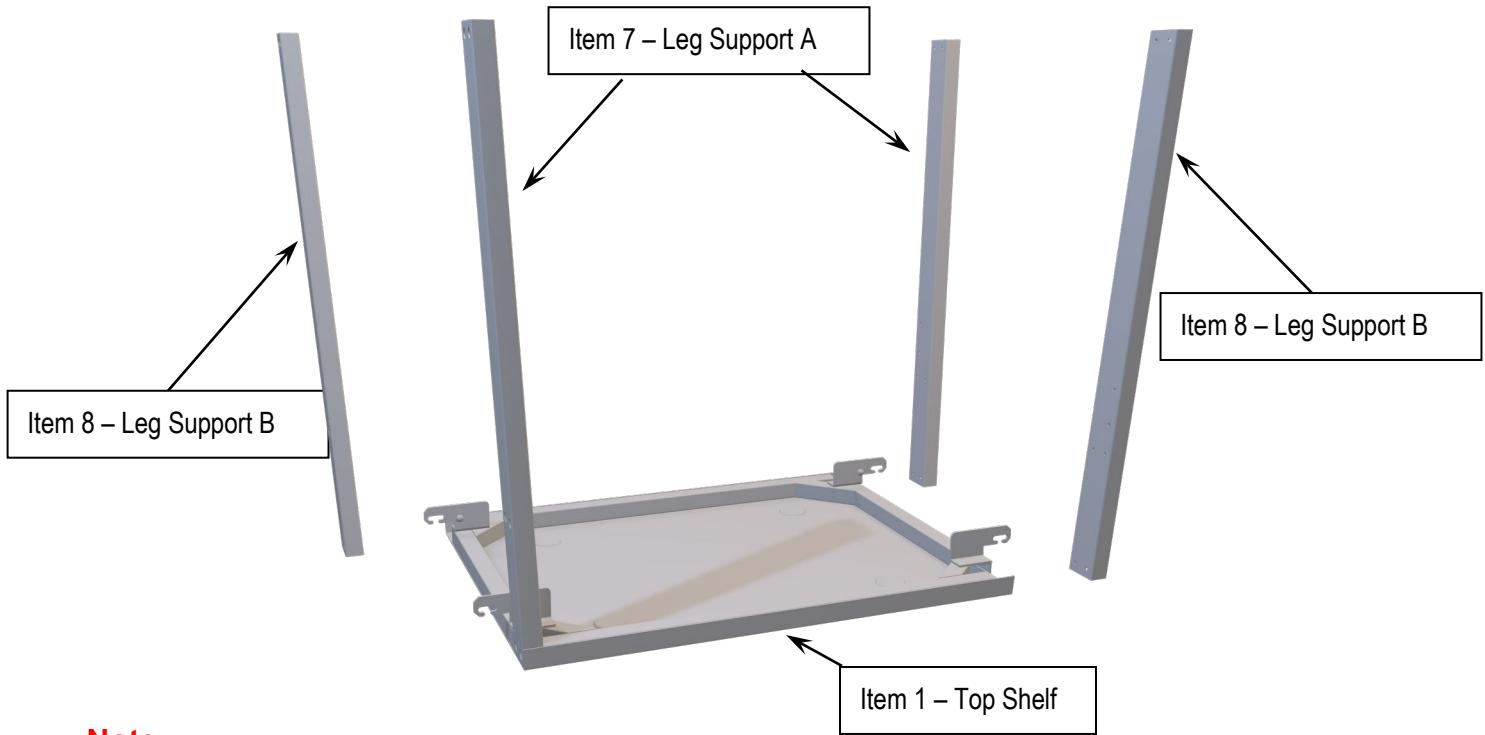

- Place cardboard or towel on the floor to prevent damage to the top of cart.  
Note: the cart is built upside down.
- The top is placed upside down on the cardboard or towel.

## STEP #2 ATTACH VERTICAL SUPPORTS TO TOP

Per illustration below, attach vertical supports A and B to the cart top using M5 x 30MM long Screws (x8), 5MM lock washer (x8), and 5MM washer (x8) with the 3MM supplied Allen wrench.

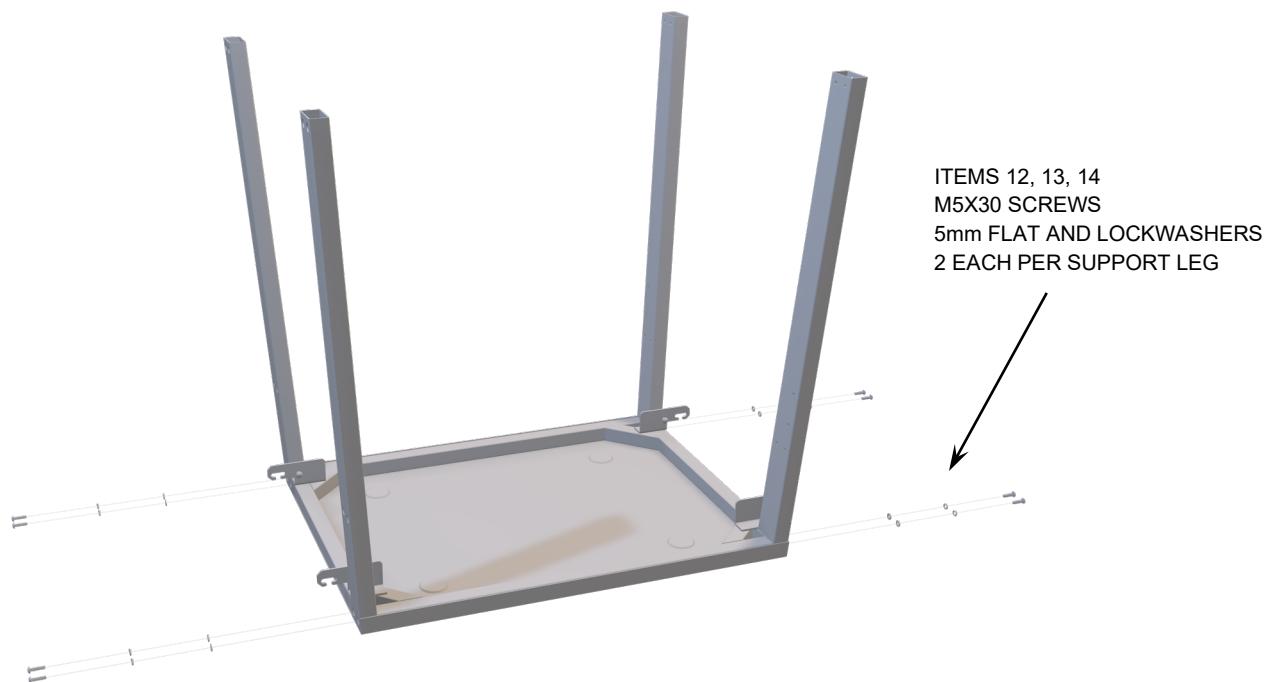

**Note:**

All vertical supports lean outward.

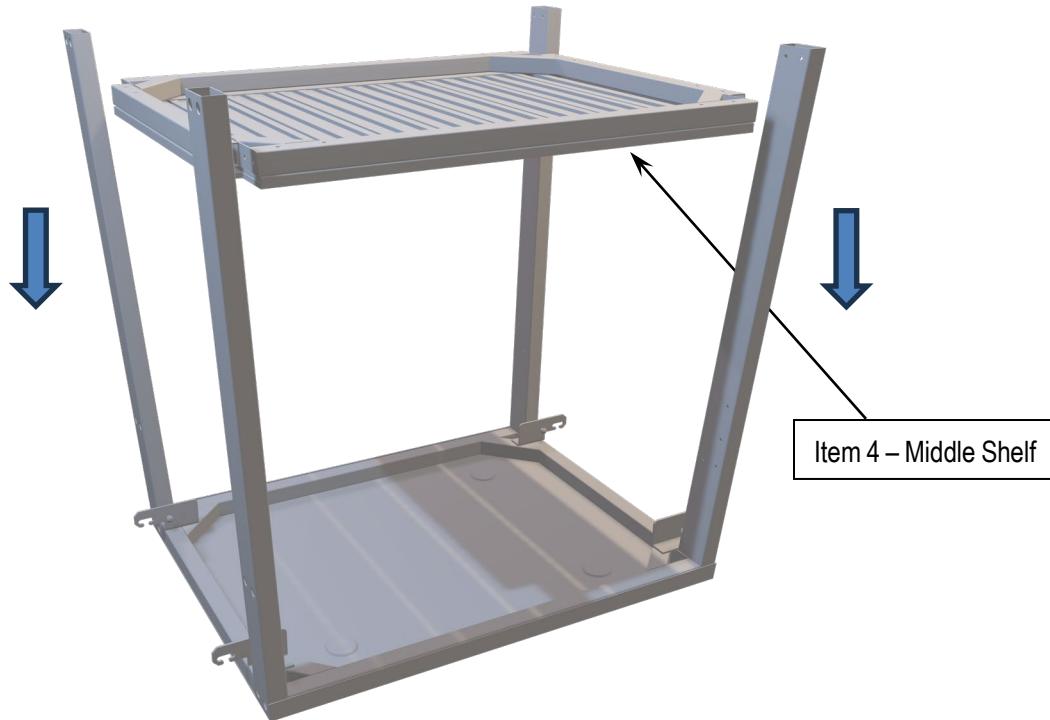

Do not tighten screws. Leave movement in the supports to ease assembly of the drawer, gussets, and bottom frame. Tightened after assembled.

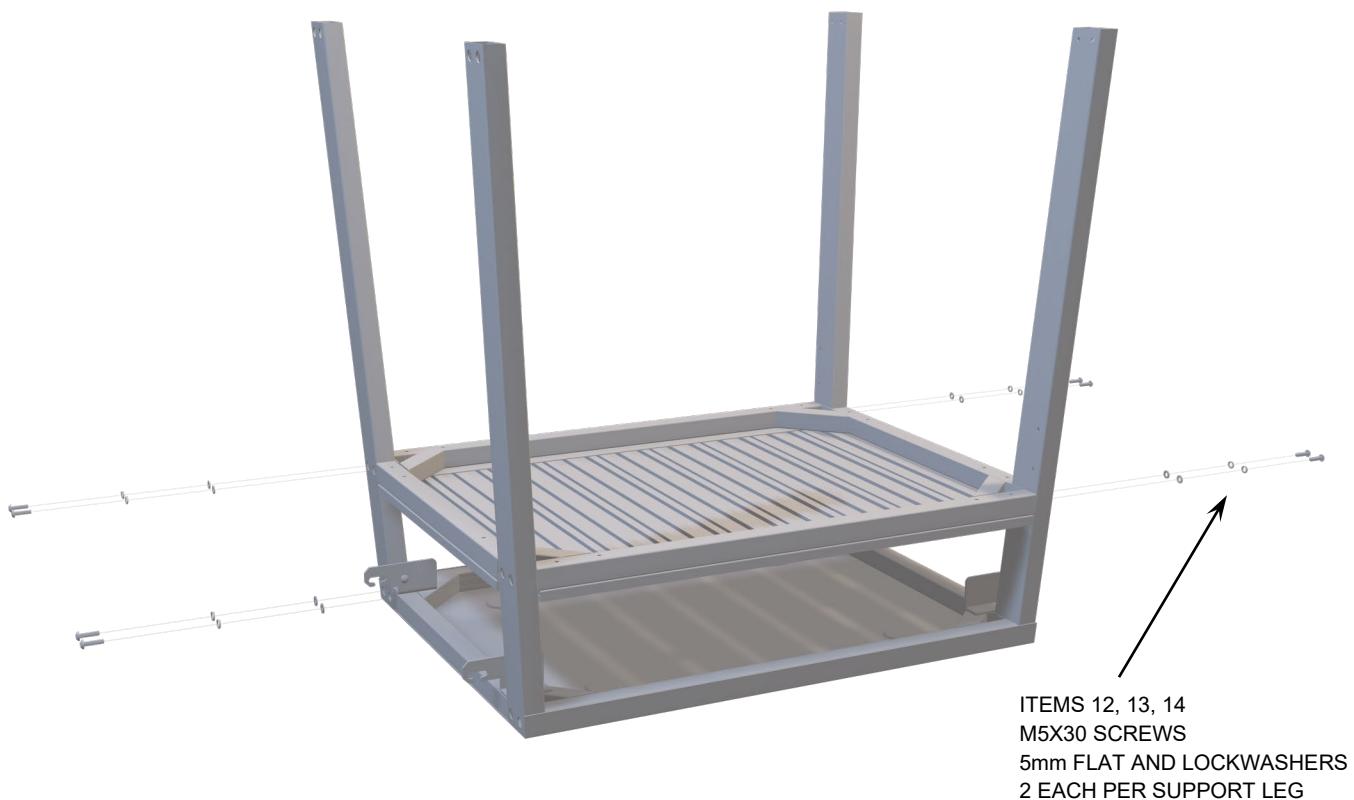

### **STEP #3 ADD SHELF TO ASSEMBLY**

Per illustration below, slide the shelf down the vertical supports A and B to align the holes.

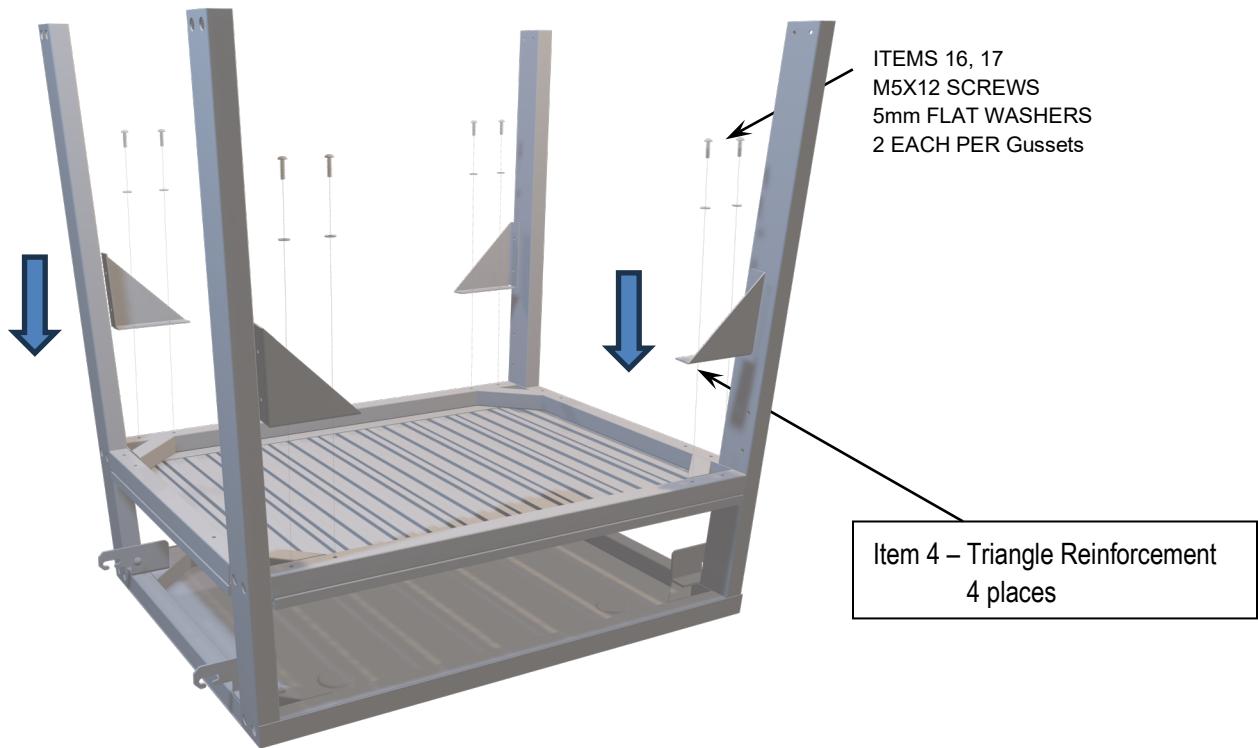

Insert the M5 x 30MM long Screws (x8), 5MM lock washer (x8), and 5MM washer (x8), to be screwed in with the 3MM supplied Allen wrench. Do not tighten. Leave movement in the vertical supports.

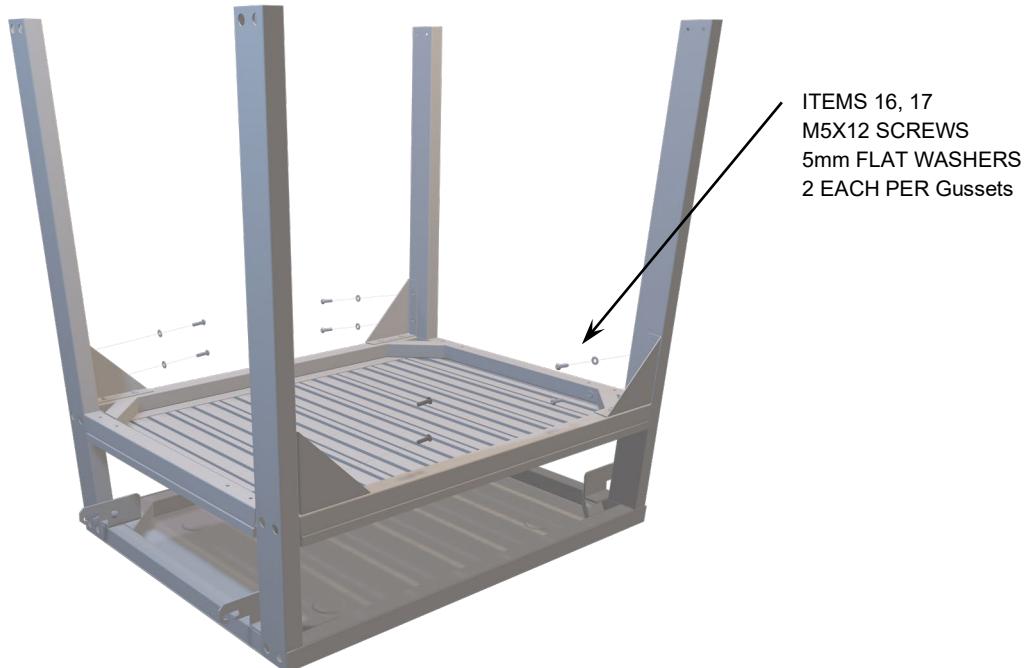

#### **4: ATTACH GUSSETS TO SHELF AND VERTICAL SUPPORTS**

Place the gussets against the bottom of the shelf and vertical supports with the flat side of the gussets to the outside of the cart. Attach the gussets by using the M5 x 12MM Philips head screws (x16) and M5 flat washers (x16) using a Philips head screwdriver (not supplied).

Screw the M5 x 12MM long Screws (x16) and 5MM flat washer (x16), thru the gussets to the vertical supports using a Phillips head screwdriver. Do not tighten. Leave movement in the vertical supports.

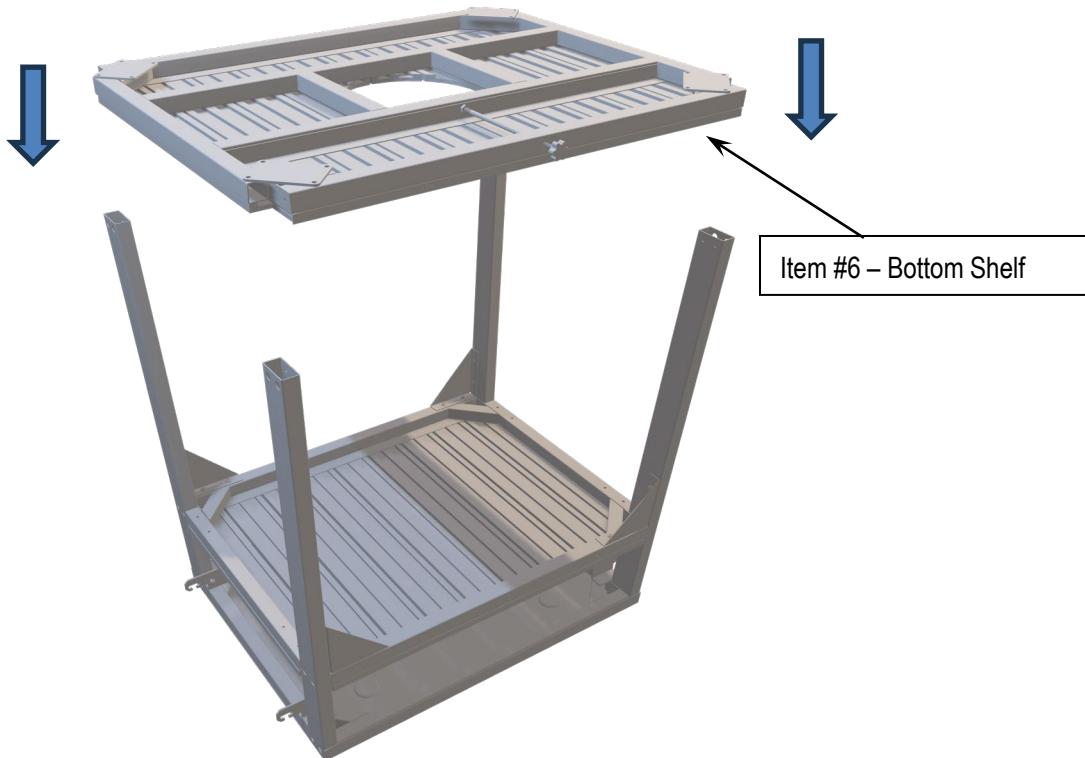

**Note:** The vertical supports still need a small amount of freedom of movement.

## 5: ADD BASE TO ASSEMBLY

Lower the base onto the assembly. Align the holes on the base with the holes on the vertical supports.

Insert the last of M5 x 22MM long Screws (x8), 5MM lock washer (x8), and 5MM washer (x8), through the vertical supports to the bottom frame with the 3MM supplied Allen wrench.

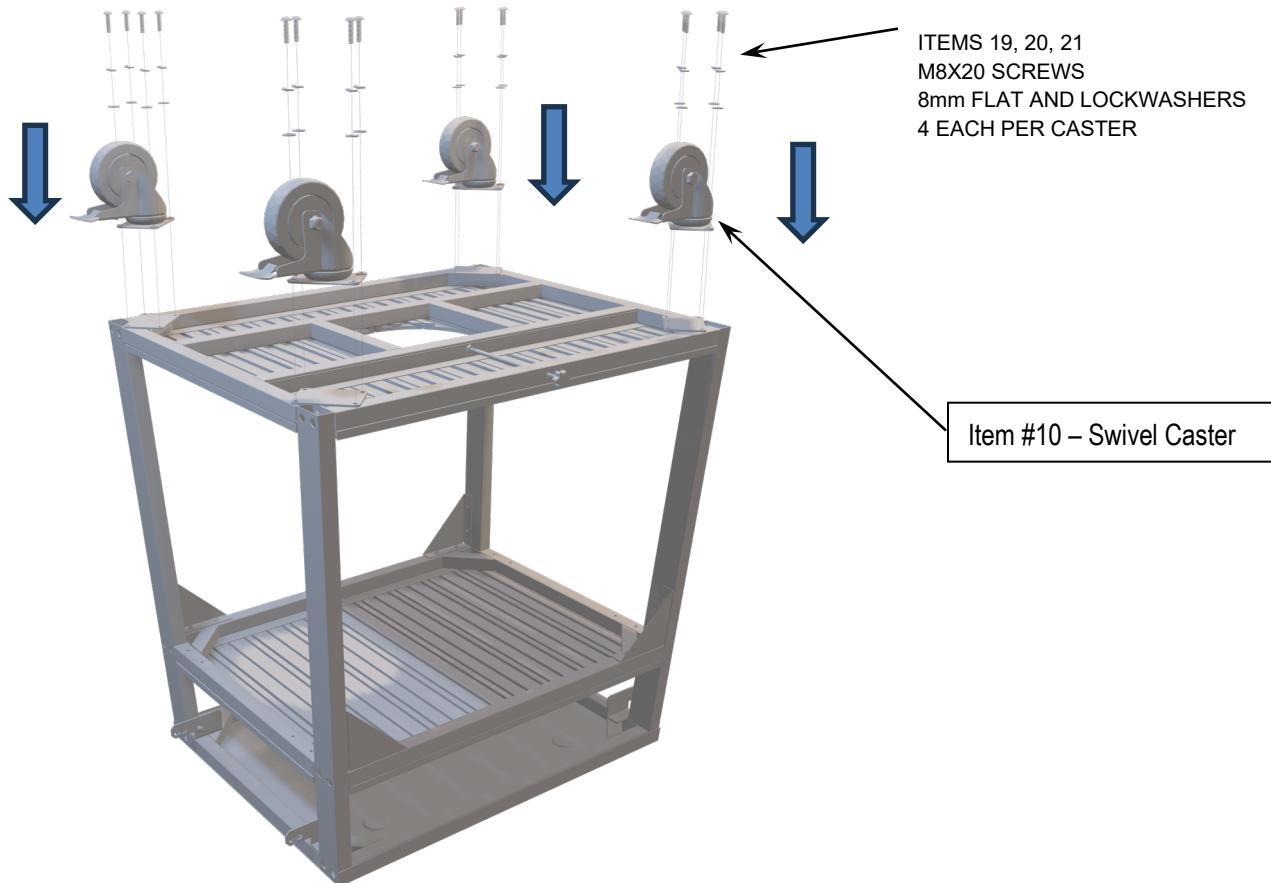

Now, go back and tighten all the screws installed.

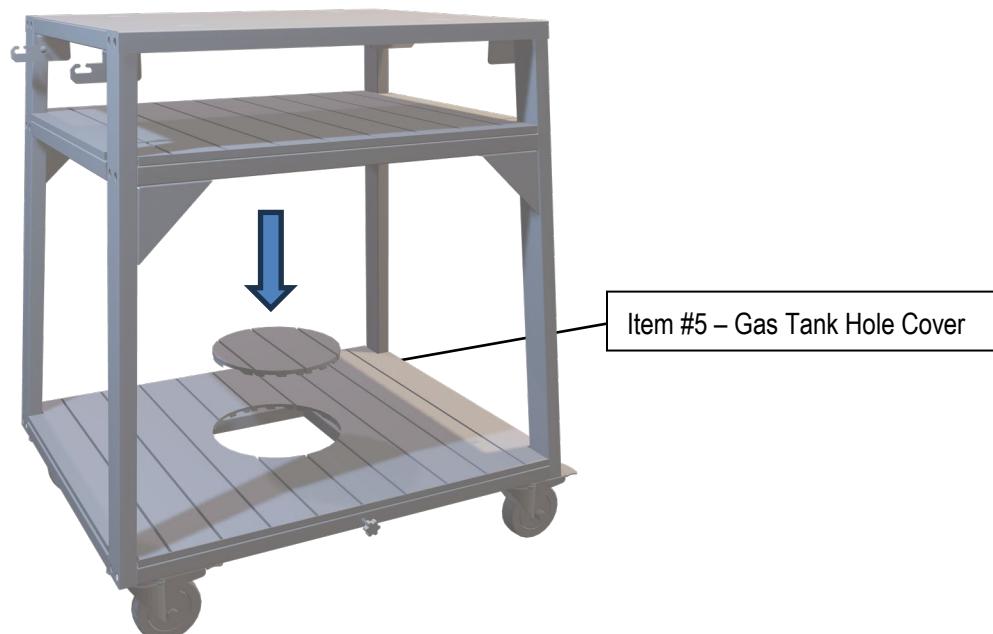

## 6: INSTALL CASTERS TO BASE

Attach casters (x4) to base with M8 x 20MM long screws (x16), M8 lock washer (x16), and M8 flat washer (x16) with the M5 Allen wrench.

## 7: STAND CART ON THE WHEELS

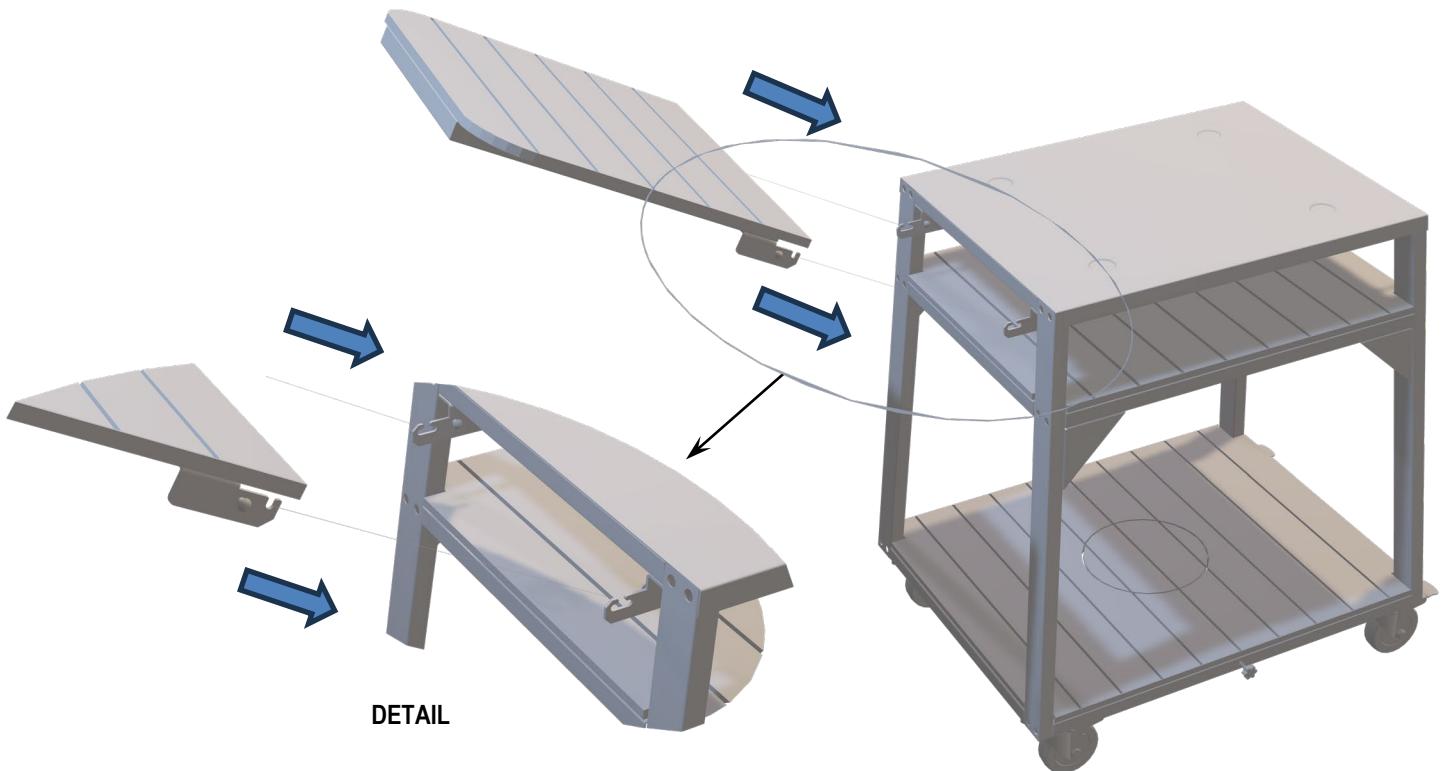

Lift and rotate the assembly setting it on the casters. (Bull recommends using two people for safety.) If not using a propane tank, place the propane base plug into place.

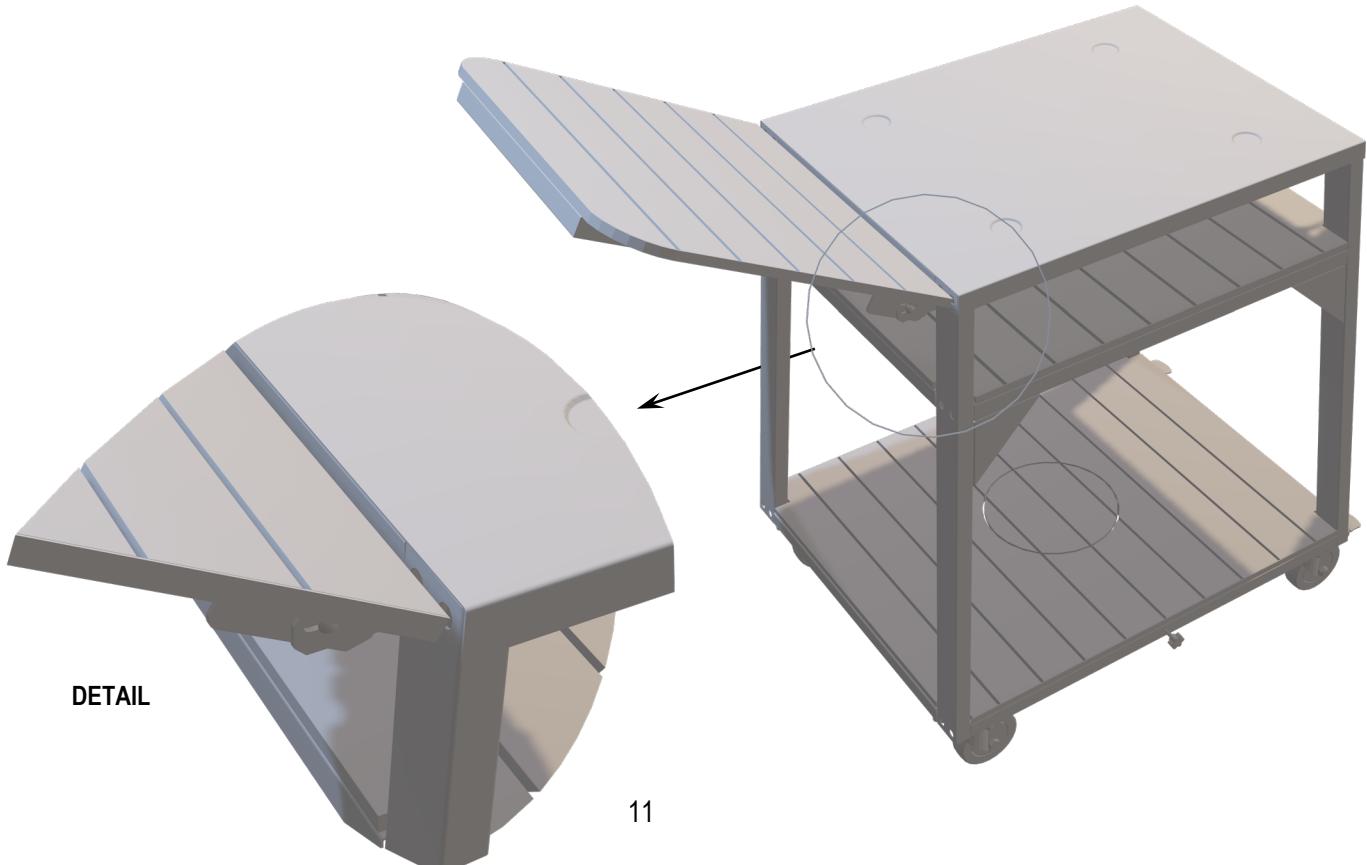

## **8: PLACING THE WINGS ON THE CART ASSEMBLY**

Slide the pins on the wing hinges into the opening of the slots on the cart top hinges.

## **9: FOLDING THE WINGS DOWN OR OUT**

With the pins in the slots, you can either pull the wings outward then fold the wing down. Or push the wings in and leave the wings level with the top.

## **10: PLACING THE DUAL FUEL PIZZA OVEN ON THE CART ASSEMBLY**

The cart assembly is complete. Fold the cart wings down. With 2 people place the dual fuel pizza oven on the cart. Note: Warning, lock casters before placing pizza oven on cart. The dimples on the top plate of the top of the cart assembly are where the rubber foot pads on the pizza oven made to reduce the potential of the oven from sliding.

## **11: PLACING THE PROPANE TANK ON CART ASSEMBLY**

If a propane tank will be used. Place the tank into hole in the bottom of the cart assembly and secure it to base. Attach the pressure regulator and hose to the propane tank and the back of the dual fuel pizza oven.

Your dual fuel pizza oven cart is now completely assembled. Please continue to read the next section your Dual Fuel Pizza Oven to understand all safety, warning and usage instructions for your Dual Fuel Pizza Oven manual before use.

## **CLEANING AND MAINTENANCE**

**WARNING:** BEFORE CLEANING YOUR CART MAKE SURE YOUR GRILL AND CART ARE COOL ENOUGH TO BE TOUCH.

### **CART CLEANING:**

Washing the cart is not necessary, but periodically it is suggested you wash the cart using a soap and warm water solution. Use only a nylon brush to remove stubborn residue. Dry the cart before the next use.

### **STAINLESS STEEL CLEANING AND MAINTENANCE OF DUAL FUEL PIZZA OVEN**

Stainless steel is a corrosion resistant chromium/nickel alloy steel that is both durable as well as strong with an outstanding luster. The goal of your cleaning and maintenance routine should be to keep the stainless steel's protective chromium oxide layer intact. This is what prevents corrosion. Contrary to popular belief, stainless steel is **NOT** rust proof, especially in the environment of a swimming pool. Chlorine, bromine, some fertilizers and other elements are extremely caustic chemicals for stainless steel. These chemicals combined with heat and humidity increase the corrosiveness of these chemicals. Regular cleaning is the best way to prevent corrosion and add years of enjoyment to your Bull Stainless Steel products.

## **Warranty Policy**

### **LIMITED WARRANTY ON BULL OUTDOOR PRODUCTS, INC., PRODUCTS**

**THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE.**
